KEY:

The times for the swim event are depicted on the following pages. The left column represents the finishers place within the male and female sex divisions. The first time indicates the actual swim time for 100 yards by electronic timing. The second time reflects a multiplication factor of 30 to give the swim equal weight in the QUAD Game standings.

Dear QUAD Participant,

We've grown accustomed to having the date changed for the QUAD Ski Race, but it was a real blow when we had to change not only the date, but also the location for the QUAD Swim Meet. My very sincere thanks to the people at Harborcreek School for accommodating our event so well with such short notice. And of course, thanks to the many QUAD swimmers who were able to juggle their schedules and attend the watery 100.

Once again, one of the highlights of the day was the participation in the QUAD Swim Meet by the Edinboro Rolling Scots, a group of physically disabled athletes from Edinboro University. Four of the Rolling Scots who completed two lengths of the pool are not listed in the overall standings of this book. They are: Carolyn Creehan, Joseph Baiera, Cindy Cuchna and Jo Ann Shoup. Special mention is certainly deserving to another member of the Rolling Scots, Sharon Haraczy who completed the 100 yards in the rather amazing time of 1:26.09.

With the swim behind us, thoughts inevitably begin to drift toward the cycling event. Since this year's event is set up as a time trial, there will be a number of changes and I'm sure many questions in your mind. Before too long, we'll be mailing you a QUAD News with information that should answer those questions.

Once again, thanks for your cooperation with our swim change and hope to see you on July 23 in Albion for the QUAD Bike Race.

Sincerely,

Craig Latimer
Coordinator/QUAD Games
